Get your home ready for your first clean

Tidy Fern Cleaning

1. The day before
2. On the day
3. After the visit

1 The day before

A little preparation lets the team spend the visit cleaning rather than tidying.

1. Pick up clothes, toys and papers from floors, beds and counters.
2. Put away cash, jewelry and fragile things you would rather move yourself.
3. Write down any surface that needs special care, such as natural stone or unsealed wood.
4. Check that we have the door code, key or lockbox details.

2 On the day

1. Keep pets in a closed room or crate, or tell us they will be out.
2. Leave a space near the door for our supplies.
3. Tell the team which two rooms matter most.

Rooms that matter most: _____

3 After the visit

1. Walk through each room the same day.
2. Tell us within 24 hours if something was missed, so we can come back to it.
3. Note what you would like done differently next time.

Next time, please: _____
